The princess, who has just died at an advanced age, has been the heroine of many a European novel, notably of that by the well-known French author, Leon de Tinseau, entitled "Comment on Devient Pacha." She was in her younger days, and even in her middle age, one of the most romantic figures of the great world of Constantinople and of Cairo, where her name, even to the last, has remained on every lip. At the time of the World's Fair of Chicago, twenty years ago, she took

He was old enough to be her father, had indeed been the boon companion of her father, and was broken in health and in fortune when he married her In spite of this, she was fond of him, allowed him to squander not only the remnants of his own fortune, but also a considerable portion of her own wealth, at the card table, mourned him sincerely when he dled, and even went to the length of paying off the Habilities which he had left behind him, so as to clear, after a fashion, his name.

Widowhood, however, did not mar her spirits or her independence of all control, and she was a source of considerable anxiety and trouble to Khedive Tewfik, who, prompted by his masterful wife, and by his equally imperious old mother-in-law, was constantly calling her to account for unconventionalities, sufficient to cause comment among foreigners, but absolute consternation to straitlaced Mohammedan men and women.

INQUIRY ORDERED

Blease Calls Attention to Charges Made in Personal Letter by Tillman.

Columbia, S. C., January 20.—Investigation of the State Hospital for the Insane was ordered to-day by the South Carolina General Assembly, following the receipt of a sensational message from Governor Cole Blease inclosing a copy of a personal letter which the Governor said was written by United States Senator B, R. Tillman, and mailed under a government frank. The order directing the investigation was embodied in a concurrent resolution.

Governor Blease said in his message that Senator Tillman in his letter, referred to an alleged attempt to oust Dr. J. W. Babcock, superintendent of the hospital by "Governor Blease's underlings and satellites." A bill authorizing the sale of the hospital now is pending in the House. The value of the property involved is said to exceed \$1,000,000.

"All the facts will be brought out if an investigation is ordered, as I hope will be. An effort will be made to smirch Dr. Babcock and his lady assistant, Dr. Saunders, as these men must have such excuse, you know, and are not at all sorupulous," reads the Senator.

Tillman Admits Letter.

Washington, January 20.—Senator Tillman to-night declined to discuss Governor lilease's message to the South Carolina Legislature other than to say that he had written such a letter as the Governor had transmitted to the Legislature.

"Yes, I wrote the letter," he said.
"It stands for itself and explains itself. That's all I have to say."

Prior to her marriage, and even afterwards, she could often be met in the country behind Scutari, on the Bosphorus, cantering along on a thoroughbred English hunter, in a short habit, top hat, and the mere suspicion of a veil, with an English groom in livery riding in her wake.

But the husbands of other Mohammedan ladies ended by rising up in arms at this, and rushing ofn to Abdul Azig, at the Dolma Bagtchee, complaining that the example which Princess Nazleh was thus setting was playing the very deuce with their own wives and daughters, who demanded similar liberty.

The Sultan, a kind-hearted, progressive man of enlightened ideas, had never until then interfered with his pretty kinswoman, but felt constrained, by the pressure brought to bear upon him, to insist that she should abandon her equestrian outings; at any rate while sine was living at Constantinople.

SUIT FOR \$35,000.

Claims Made Against Owners of Steamer Indrakula.

(Special to The Times-Dispatch.]

Norfolk, Va., January 20.—Suit for claims aggregating \$35,000 against the owners of the British steamer Indrakula, which ran into and sank the steamer Luckenbach in Chesapeake, Bay, on January 3, 1913, began in the Pederal court to-day. Fourteen lives were lost when the Luckenbach went down.

The claims are filed by owners of the vessel's cargo and relatives of members of the crew who lost their lives. The case will be on trial for several days. Counsel said the Indrakula was proceeding down the bay and the Luckenbach going in the opposite direction. Both sides seemed to agree that shortly before the accident one of the Merchants' and Miners' steamers passed, proceeding in the same direction with the Luckenbach, and that the Luckenbach was at the time of the collision heading to the westward intending to go to anchor. The lawyers for the Indrakula said that she had slowed down ready to anchor, and that the Luckenbach changed her course and attempted running at full speed, to pass ahead, cross the bows of the Indrakula. Both vessels charge failure upon the part of the other to sound proper fog signals, maintain a good lookout and proceed at a sufficiently reduced rate of speed.
